Contents

Volume 91 (1993)

PHYSIOLOGY AND BIOCHEMISTRY

UV-B-induced anthocyanin synthesis in maize regulated by FMN and inhibitors of FMN photoreactions
by M. Khare and K.N. Guruprasad (Indore, India) 1–5

Toxic effects of the ionophore A23187 on *Chara*
by R.J. Reid and F.A. Smith (Adelaide, Australia) 7–13

The primary defect in developing seed from the high oleate variety of peanut (*Arachis hypogaea* L.) is the absence of Δ^{12}-desaturase activity
by T.K. Ray, S.P. Holly, D.A. Knauft, A.G. Abbott and G.L. Powell (Clemson, SC; Gainesville, FL) 15–21

Analysis of sterols in plants and cell cultures producing ecdysteroids: I. *Chenopodium album*
by M.-F. Corio-Costet, L. Chapuis, R. Scalla and J.-P. Delbecque (Villenave d'Ornon, Toulouse and Dijon, France) 23–33

GENETICS AND MOLECULAR BIOLOGY

Characterization of some nuclear matrix proteins in maize
by M. Ivanchenko, B. Tasheva, L. Stoilov, R. Christova and J. Zlatanova (Sofia, Bulgaria) 35–43

Pedigree analysis of the transmission of a double-stranded RNA in barley cultivars
by I. Zabalgogeazcoa, D.C. Cox-Foster and F.E. Gildow (University, Park, PA) 45–53

CELL AND TISSUE STUDIES IN VITRO

Somatic hybrids produced between *Lycopersicon esculentum* and *L. hirsutum*
by P. Jourdan, T. Montagno and S. Berry (Columbus, OH) 55–65

Cryopreservation of asparagus (*Asparagus officinalis* L.) embryogenic suspension cells and subsequent plant regeneration by vitrification
by S. Nishizawa, A. Sakai, Y. Amano and T. Matsuzawa (Nagano and Sapporo, Japan) 67–73

Developmental expression of isozymes during embryogenesis in barley anther culture
S. Pedersen and S.B. Andersen (Frederiksberg, Denmark) 75–86

Effect of nutrition on maturation of alfalfa (*Medicago sativa* L.) somatic embryos
by F.-M. Lai and B.D. McKersie (Guelph, Canada) 87–95

In vitro regeneration of *Dendrocalamus strictus* Nees through nodal segments taken from field-grown culms
by H.C. Chaturvedi, M. Sharma and A.K. Sharma (Lucknow, India) 97–101

A revised protocol for efficient regeneration of somatic embryos and acclimatization of plantlets in pecan, *Carya illinoensis*
by H. Mathews and H.Y. Wetzstein (Athens, GA) 103–108

Evaluation of biochemical markers (sugar, proline, malonedialdehyde and ethylene) for cold sensitivity in microcuttings of two coffee species
by L. Jouve, F. Engelmann, M. Noirot and A. Charrier (Montpellier, France) 109–116

Book Reviews 117–119

PHYSIOLOGY AND BIOCHEMISTRY

Endogenous polyamine levels and flooding-enhanced leaf senescence of tobacco
by W.P. Hurng and C.H. Kao (Taiwan, ROC) 121–125

Characterization and partial purification of β-1,3-D-glucan (callose) synthase from barley (*Hordeum vulgare*) leaves
by L.H. Pedersen, S. Jacobsen, J. Hejgaard and S.K. Rasmussen (Roskilde and Lyngby, Denmark) 127–138

GENETICS AND MOLECULAR BIOLOGY

Transgenic flax plants from *Agrobacterium* mediated transformation: incidence of chimeric regenerants and inheritance of transgenic plants
by J-Z. Dong and A. McHughen (Saskatoon, Canada) 139–148

Cloning the δ′-subunit of the mitochondrial F_1-ATPase from peas
by C. Sulli and D.J. Oliver (Idaho, USA) 149–156

Variable resistance to plum pox virus and potato virus Y infection in transgenic *Nicotiana* plants expressing plum pox virus coat protein
by M. Ravelonandro, M. Monsion, R. Delbos and J. Dunez (Villenave d'Ornon, France) 157–169

Development of polysomaty in seedlings and plants of *Cucumis sativus* L.
by L.J.W. Gilissen, M.J. van Staveren, J. Creemers-Molenaar and H.A. Verhoeven (Wageningen, The Netherlands) 171–179

Molecular analysis of transgenic rapeseed plants obtained by direct transfer of two separate plasmids containing, respectively, the cauliflower mosaic virus coat protein gene and a selectable marker gene
by C. Hervé, D. Rouan, P. Guerche, M.-H. Montané and P. Yot (Castanet Tolosan, Toulouse, Versailles and Strasbourg, France) 181–193

Expression of a hybrid (1-3,1-4)-β-glucanase in barley protoplasts
by B.A. Phillipson (Copenhagen, Denmark) 195–206

CELL AND TISSUE STUDIES IN VITRO

Accumulation of monoterpenes in shoot-proliferation cultures of *Lavandula latifolia* Med.
by M. del Carmen Calvo and M.C. Sánchez-Gras (Valencia, Spain) 207–212

Production of somatic hybrids between *Nicotiana benthamiana* and *N. tabacum* and their resistance to aphids
by M. Hagimori, M. Matsui, T. Matsuzaki, Y. Shinozaki, T. Shinoda and H. Harada (Tochigi, Mie and Yokohama, Japan) 213–222

In vitro culture of *Aloe barbadensis* Mill.: quantitative DNA variations in regenerated plants
by A. Cavallini, L. Natali, G. Cionini, O. Sassoli and I. Castorena-Sanchez (Pisa, Italy; Merida, Mexico) 223–229
